About Us

- Safety360 & Services Managament (Pty) Ltd is a dynamic multi-service provider committed to delivering safe, efficient, and innovation solutions to businesses, industries and communities.
- While newly established, the company is founded on strong values and a vision to redefine service delivery in South Africa.
- Our services are designed to provide comprehensive support under one roof, ranging from maintenance and cleaning to supply, delivery, and plant support.

SAFETY360
SERVICES MANAGEMENT

Our Mission

Mission

Our Mission is to provide safe, innovative, and reliable service solutions that consistently exceed client expectations. We are committed to delivering excellence in every aspect of our operations, ensuring that safety, efficiency, and quality remain at the core of our services.

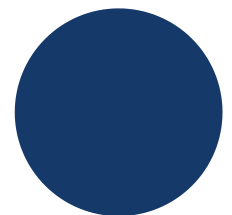

Our Vision

Vision

Our Vision is to become South Africa's most trusted and innovative multi-service provider, setting the benchmark for excellence across all industries we serve. We strive to deliver services that combine quality, safety and efficiency, ensuring that our clients experience consistent value and reliable solutions.

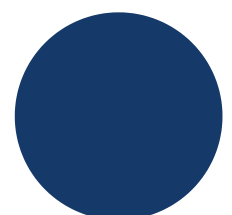

Our Core Values

Safety - We prioritize the wellbeing of people, property and the environment.

Integrity - We operate with honesty, transparency, and professionalism.

Care & Respect - We foster inclusivity, dignity, and responsibility in everything we do.

Collaboration - We build strong partnerships with clients, suppliers, and communities.

Innovation - We use modern tools and smart solutions to deliver excellence.

What Makes Us Unique

Compliance & Governance

Fully registered with CIPC, SARS, and compliant with tendering requirements

Reliability & Flexibility

- One-stop service provider offering a board range of solutions.
- Flexible service models tailored to meet client requirements.

Innovation & Technology

- Use of modern cleaning and maintenance equipment to increase efficiency.

Safety & Quality Excellence

- Every service is delivered with a zero-harm approach.

Community Upliftment

- Dedicated to creating job opportunities and training for local communities.
- Focus on empowering disadvantaged groups and contributing to social development.

Case Studies

Client: Anglo American Platinum (International Mining Company)

Challenge:

The company needed a dependable service provider to support plant operations by managing routine maintenance, safety compliance checks, and the timely supply and movement of critical materials and equipment, all while ensuring minimal disruption to production schedules.

Our Solution:

The Director of Safety360 & Services Management personally oversaw the project and coordinated a team of skilled professionals equipped with modern tools, safety systems, and industry-standard processes. We implemented structured maintenance and compliance schedules, managed the delivery and offloading of essential materials efficiently, and ensured that all safety protocols were strictly followed.

Outcome:

Plant operations continued without interruptions.

Anglo American Platinum benefited from streamlined processes, reducing operational downtime.

The client praised our hands-on approach, professionalism, and strict adherence to safety standards, reinforcing our reputation as a reliable international service partner.

Client: AVI Limited (International FMCG Company)

Challenge:

AVI Limited required a reliable service provider to manage the delivery of office equipment across multiple sites and provide maintenance services for air-conditioning systems, ensuring minimal disruption to office operations and staff productivity.

Our Solution:

The Director of Safety360 & Services Management personally oversaw the project, deploying a skilled team with experience in logistics, equipment handling, and HVAC maintenance. We coordinated timely deliveries of office equipment, implemented scheduled maintenance for air-conditioning units, and ensured all work adhered to safety and operational protocols.

Outcome:

Office operations remained seamless with no disruptions.

Air-conditioning systems were maintained efficiently, enhancing staff comfort and productivity.

AVI Limited commended our professionalism, reliability, and ability to provide integrated solutions under one service provider.

Client: Valterra Platinum (International Mining & Processing Company)

Challenge:

Valterra Platinum required a reliable cleaning and facility management service provider to maintain high hygiene standards across its processing plant, offices, and staff areas. The company sought a provider who could ensure compliance with health and safety regulations while minimizing disruption to operations.

Our Solution:

The Director of Safety360 & Services Management personally coordinated the deployment of a trained cleaning team, implementing structured cleaning schedules and strict hygiene protocols. Our team also assisted with the movement of materials, proper waste management, and maintained safety compliance during all activities.

Outcome:

Plant and office areas remained clean and hygienic, meeting regulatory standards.

Operations continued without interruptions.

Positive client feedback highlighted our professionalism, reliability, and adherence to health and safety best practices.

Client: Anglo American Platinum (International Mining Company)

Challenge:

Needed a dependable service provider for maintenance, deliveries, and material handling while ensuring safety compliance and minimal downtime in production.

Our Solution:

The Director of Safety360 & Services Management supervised the project personally, deploying a skilled team with modern tools and safety systems. We implemented structured maintenance schedules, managed deliveries and offloading efficiently, and ensured strict adherence to safety protocols.

Outcome:

Continuous plant operations with zero downtime.

Streamlined processes and reduced operational inefficiencies.

Client praised our hands-on management, professionalism, and commitment to safety.

Client: Medium-Sized Manufacturing Plant

Challenge:

Required a reliable service provider to manage routine maintenance, cleaning, and supply of office equipment while minimizing operational downtime.

Our Solution:

Safety360 & Services Management deployed a skilled team equipped with modern tools and safety systems. We provided structured cleaning schedules, managed deliveries on time, and assisted with loading and offloading processes.

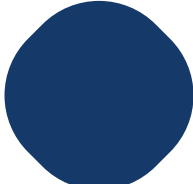

Outcome:

Operations remained uninterrupted.

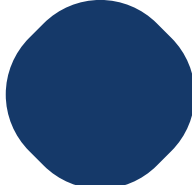

Client saved costs by consolidating multiple services under one provider.

Positive feedback received for professionalism, reliability, and a safety-first approach.
